

ABSTRACT

A hand-held dispenser (1) for dispensing a multiplicity of unit products (3) having a storage area (100) for storing the unit products, an outlet opening (311) through which the unit products are dispensable from the dispenser, a dispensing mechanism (350) actuable to dispense the unit products through the outlet opening, and a dispensing indicator (400) for indicating the number of unit products left in, or dispensed from, the dispenser. The dispensing indicator is integrated with the dispenser such that it is automatically updated in response to the dispensing of the unit products therefrom.
